PLUS

Reliable Quality and great features that adopts the design of 10-inch swiveling touch screen, which fully digitally presents system pressure, temperature, recovery and charge weight. The large sight glass and the dynamic cleaning interface make the cleaning process of the air conditioning system visualized and digitized. The newly designed program can automatically complete the recovery, vacuuming, charging, cleaning, and leak detection. The unique design improves the ability to discharge the oil, so that the oil change rate is as high as 80% or more.

SPECIFICATION

Refrigerant:	R134a
Power Supply:	220V AC
Power Consumption	1200W
Operating Temperature Range	-20°C~+60°C
Display:	10 inch Touch Screen
Oil Bottles:	3*350ml, (Hermetically sealed, PAG/POE/Drain oil)
Electronic Load Cell:	4 (Refrigerant Tank, PAG/POE/Drain oil)
Scale Accuracy:	10g
Recovery Efficiency :	95% above
Recovery Capacity:	2/3HP
Vacuum Capacity:	120L/min (Bipolar)
Tank Capacity:	18kg
Filter Capacity:	100kg
Dimension (mm):	1056(H) * 646(D) * 568(W)
Weight:	90kg
