

LAUNCH

X-PROG3 Gearbox Clone Connectors Adapter Kit

- Makes cloning easy
- Eliminates risk of soldering
- All cables in one convenient case
- Compatible with most manufacturers

Specifications

- Total Adapters – 13 (including main cable)
- Adapter Cable 1 – DQ200XX gearbox (VW, Audi)
- Adapter Cable 2 – VL381 gearbox (VW, Audi)
- Adapter Cable 3 – DQ380 / DQ381 / DQ500 gearbox (VW, Audi)
- Adapter Cable 4 – DQ250 gearbox (VW, Audi)
- Adapter Cable 5 – DL501XX gearbox (VW, Audi, Porsche)
- Adapter Cable 6 – DL382 gearbox (VW, Audi)
- Adapter Cable 7 – VGS-NAG3 gearbox (Mercedes-Benz, Nissan)
- Adapter Cable 8 – VGS-FDCT / VGS2-FDCT gearbox (Mercedes-Benz, Infiniti)
- Adapter Cable 9 – VGS3-NAG2 gearbox (Mercedes-Benz)
- Adapter Cable 10 – 8HP Series / AL450 / AL551 / AL552 (BMW, Land Rover, Jaguar, Dodge, Chrysler, Rolls-Royce, Alfa Romeo, Aston Martin, Jeep, Maserati, Lamborghini, Iveco, Great Wall)
- Adapter Cable 11 – MPS6 / MPS6 GEN3 gearbox (Ford, Renault, Chrysler, Dodge, Land Rover, Volvo)
- Adapter Cable 12 – DPS6 gearbox (Ford)
- Main Cable (ML) – Extension harness connecting immobiliser programmer to gearbox harness
- Carry Case – Included

Features

- Designed for gearbox cloning using Launch X431 X-PROG3 system
- Eliminates soldering to reduce risk of ECU and TCU damage
- Broad vehicle coverage across major European, American and Asian manufacturers
- Plug-and-play cable identification for quick and efficient workflow
- All adapters organised in a protective carry case
- Ideal for professional automotive diagnostics, ECU programming and transmission servicing
