

FEATURES

- 1000 litre air receiver tank
- 1m³ compressed air storage capacity
- Industrial vertical air receiver
- 10 bar pressure rating
- Listed pressure detail: 1300 kPa
- Vertical space-saving design
- ASME Sec VIII certified
- Div 1, Cat IV certified
- Suitable for compressor systems
- Suitable for workshops and industrial use
- Heavy-duty 484kg tank
- Conformity certificate supplied as per legislation
- Certificate charged separately

SPECIFICATIONS

General

- Product: Airstream Air Receiver Tank
- Type: Industrial Vertical Air Receiver
- Capacity: 1000L
- Volume: 1m³
- Design: Vertical
- Application: Compressed air storage

Pressure Rating

- Pressure Rating: 10 Bar
- Listed Pressure Detail: 1300 kPa

Certification

- Standard: ASME Sec VIII
- Division: Div 1
- Category: Cat IV Certified
- Conformity Certificate: Supplied as per legislation
- Certificate Charge: Charged separately

Dimensions & Weight

- Height: 2396mm
- Diameter: 800mm
- Weight: 484kg

Use Applications

- Industrial compressor systems
- Workshops
- Factories
- Compressor rooms
- Pneumatic tool systems
- Compressed air storage installations
