

ADVANCED IMMO, KEY CODING & DIAGNOSTIC SCANNER & ECU FLASHING (J2534)

Introducing the Autel MaxiIM IM608PRO II 2024 Model, the ultimate professional-grade diagnostic scanner and key coding tool.

This advanced device is designed to meet the needs of automotive technicians, locksmiths, and car enthusiasts, providing you with unrivaled capabilities for vehicle diagnostics, immobilizer programming, key coding, ECU flashing (J2534), and much more.

Stay at the forefront of technology and provide your customers with exceptional service and repairs.

FEATURES

- Comprehensive Vehicle Diagnostics:** Extensive vehicle coverage, supporting over 80 vehicle brands and providing deep diagnostics for all major systems. Identify and resolve complex issues with ease, ensuring optimal vehicle performance.
- Advanced Immobilizer Functions:** This cutting-edge scanner enables you to program new keys, add or delete keys, and perform all key-related functions effortlessly and ensures efficient and reliable immobilizer programming.
- Key Coding and Reprogramming:** Stay ahead of the curve by programming smart keys, proximity keys, and remote keys for a wide range of vehicles. Supports key coding for both new and used ECUs, ensuring seamless integration and security.
- ECU Flashing (J2534) Capabilities:** With J2534 pass-through programming capabilities, the IM608PRO II enables you to reflash the vehicle ECUs with OEM software. This allows you to update, enhance, or modify vehicle firmware, resulting in improved performance and increased compatibility.
- Built-In Rechargeable Battery:** Equipped with a powerful built-in battery, offering you the freedom to perform diagnostic and programming tasks without being tethered to a power source. Take your scanner anywhere and enjoy uninterrupted functionality.

Wireless Connectivity: Connect the IM608PRO II to your vehicle via Bluetooth or Wi-Fi for seamless communication and data transfer. Stay connected with the latest updates and vehicle-specific information, ensuring you have access to the most accurate and up-to-date resources

Chip Simulation (Requires the use of the Autel APB112)

SPECIFICATIONS

Processor Octa-core
Touchscreen 10.1-inch
Resolution 1920x1200
Memory 128GB
Rechargeable Li-ion Battery 15000 mAh
Internet Updatable Wi-Fi
Camera 16.0 Megapixel
Connection JVCI+
Programmer XP400PRO
Weight 1.58 kg
Remote Expert Advanced
Device/Report Management Yes
Reading/Writing EEPROM Yes
Reading/Writing MCU Yes
Reading/Writing Engine ECU Yes
Reading/Writing IMMO ECU Yes
Universal Key Information Detection Yes
Write key to ECU by programmer Yes
Key Unlocking Yes
Frequency Detection Yes
Universal key generation Yes

Universal key generation Yes
Diagnostic Functions
Auto VIN Yes
Reading/ Erasing codes Yes
Read Live Data Yes
Read Freeze Data Yes
Read ECU information Yes
Active Test Yes
Service Function 40+
Special Function Yes
Online Coding Yes
(Mercedes-Benz vehicles are not covered)
Offline Coding Yes
Hidden Function Yes.
(Mercedes-Benz vehicles are not covered)
Guided Function Yes.
(Mercedes, BMW, JLR vehicles not covered)
Offline Programming Yes
Cloud Service Report Management
