

FEATURES

- 8.5mm Digital Inspection Camera for MaxiSys Tablet Kit
- White LED lights to illuminate the inspection areas
- Small diameter allows it to be used in the tight spaces
- Wonderful for up-close visual inspections in confined areas, such as engine cylinders and small part inspections
- Powerful and perfect for inspecting most spark plug holes

Super bright LED and high resolution provide crystal clear images

VIDEOSCOPE / BORESCOPE

The MV108 digital inspection camera is designed to work with MaxiSys series products or PC/Laptop.

It turns your MaxiSys tablet into a video inspection scope, allowing you to examine difficult-to-reach areas normally hidden from sight.

It is capable of recording digital still images and videos, which offers you an economical solution to inspect machinery, facilities, and infrastructure in a safe and quick way.
