## TTH-338

One time extrusion molded for a finished smooth look

With Olsecurity locks, usage life of over 50,000 times

Safety lock system prevents the drawers from being accidentally opened

Pegboard design on the side to hang tools and various items

Two reinforcing ribs at the rear panel to prevent vibrations

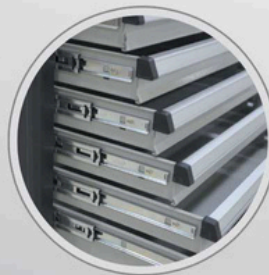

Replaceable labels

One time extrusion molded aluminium alloy handles for years of durability

Heavy duty ball-bearing slides with a loading capacity of 65kg

Heavy duty casters with two-way brakes and a loading capacity of 450kg

With heavy duty stacked self-priming slides to prolong service life and prevent the drawers from accidentally opened

The handle and top cover are formed by one-step injection molding, exquisite and durable.

## FEATURES

- ✓ There are no welding spot on the entire cabinet frame and the cabinet is assembled at a time which ensures the quality and stability of the cabinet.
- ✓ The whole tool cabinet used antirust coated galvanizing material, incomparable high quality.
- ✓ The handle and top cover are formed by one-step injection molding, exquisite and durable.
- ✓ Each drawer is equipped with a self-back slide rail, which prevents the drawers from opening automatically and ensures safe use.
- ✓ With heavy duty stacked ball-bearing slides, the drawer can be opened to its full length and service life is prolonged.

# TTH-338 OVER 130% EXCEEDS DIN TORQUE STANDARDS
