

Bike Ceramic Chain Spray

Description

Special lubricant for chains on bicycles and e-bikes. Reduces friction and wear due to its ceramic high-performance additives. Protects chain and cassette in moist and dirty conditions as well as in dry and dusty ones. Has outstanding creep directly after application. Spin-off is minimized thanks to the tremendous adhesion strength. Provides excellent corrosion protection for metallic components and does not react with plastics, paints or metals.

Properties

- excellent wear protection
- extremely low friction
- high-strength adhesion
- excellent penetration action
- excellent corrosion protection
- good water resistance

Technical data

Base	special combination of additives with oil
Color / appearance	yellowish, milky
Propellant	propane, butane
Form	aerosol
Odor	characteristic

Areas of application

For lubricating and protecting bicycle and e-bike chains under all operating conditions.

Application

First clean the chain with LIQUI MOLY Brake and Chain Cleaner (part no. 6054). Then shake the can well and apply chain spray thinly to the dry chain. Wipe off any excess. Allow to flash off well afterwards.
