Product information

LM 49 Fluid Paste

Description

Ideal assembly, lubricating and running-in paste. For numerous applications in the manufacture, maintenance and servicing of motor vehicles, in agricultural applications, industry and construction machines. Very adherent. Penetration properties ensure excellent lubrication and optimal wear reduction, even with economic application. Very easy to use and thus particularly suitable for the workshop.

FileBpaste For Broken For Broken

Properties

- highest load-carrying capacity
- outstanding emergency-running properties
- economical
- universal application
- good corrosion protection
- simple to use
- outstandingly adherent

Available pack sizes

500 g Can sheet metal 3060

D-GB-I-E-P

Our information is based on thorough research and may be considered reliable, although not legally binding.

Technical data

Color / appearance schwarz / black

Base Mineralöl / mineral oil

Additives Kombination

synthetischer Festschmierstoffe / combination of synthetic

solid lubricants

Consistency Thixotrop, bei

Scherbeanspruchung flüssig / thixotropic, fluid under shear loading

Operating temperature

range

30 bis +600 / 30 to +600 %

Odor charakteristisch /

Form pastös, flüssig / pastelike,

liquid

Density at 20 °C 1,2 g/cm³ Flash point >200 °C

Areas of application

Is exceptionally well-suited for the assembly, repair and maintenance of the entire motor vehicle. Can also be used in engineering and in industrial applications.

Application

Apply thinly onto surfaces which must be clean but not free of oil. Rubbing in not necessary. Can be applied in excess.
