

Oil and Chemical Binder Plus

Description

High-quality natural granulate binds liquids on solid surfaces. It immediately sucks up and encapsulates water, oil or chemicals. Retains optimum slip resistance, even with full saturation. The grain enables penetration of small cracks. The granulate is MPA-NRW TYPE III R-tested and thus officially tested and approved for use on traffic surfaces. It has a high absorbency with minimal waste, remains hard and is easy to sweep and to remove. It is chemically stable, non-flammable and causes no toxic reactions.

Areas of application

For binding all types of liquids on every solid surface. The contents of a 10 kg sack can bind approx. 9.5 l of oil.

Available pack sizes

10 kg Bag plastic 21928
