

Whether for maintenance cleaning or deep cleaning: FloorPro Fine Stoneware Cleaner RM 753 is always the optimal choice for unglazed, open-pored fine stoneware tiles. Not only does it effortlessly remove grease, oil and mineral contamination, but its surfactant- and enzyme-free formulation also effectively prevents rapid resoiling and ensures a pleasant, fresh fragrance. The slightly alkaline and low-foaming detergent can be used both manually and with a scrubber dryer. Kärcher recommends the single-step method for maintenance cleaning and the two-step method for deep cleaning. Professionals in the building cleaning sector also benefit from the high user safety of the non-toxic cleaner. If required, FloorPro RM 753 is also suitable for use in oil separators.

Features

- Powerful deep cleaner for heavily soiled fine stoneware tiles
- Removes oil, grease and mineral contamination
- Very good wetting
- Low-foam formulation
- Extremely economical
- Pleasant, fresh scent
- Quick oil and water separation in the oil separator (easily separable = asf)
- NTA-free
- Tenside and enzyme-free

Specifications

- Packaging size (l) 10
