

With 850 Watt power, the compact dry vacuum cleaner T 7/1 Classic produces an impressive vacuum of 23.0 kPa. The vacuum cleaner is pleasantly quiet with only 63 dB(A). The machine has a 2.0 metre long suction hose and is very light weighing 3.5 kilograms. The moulded bend allows long periods of fatigue-free work. The good track properties of the dry vacuum cleaner are thanks to the chassis with 2 fixed castors and 2 swivel castors. An all-round bumper ensures that the impact-resistant 7.5 litre container does not cause any damage to furniture, etc.

The T 7/1 Classic comes with a fleece filter bag as standard.

## Features

### **Low weight**

Compared to competitor models up to 50 percent lower weight with identical container volume.

### **Main filter basket for optimal dust separation**

The permanent main filter ensures optimum dust separation, allowing operation without a filter bag.

### **Maximum suction power with simultaneously minimal energy use**

Optimised airflow ensures excellent suction power, thus making oversized turbines superfluous. Compared to competitor models almost 25 percent lower power consumption. Higher suction power at the floor nozzle compared to competitor models with 25 percent lower power consumption.

### **Cable hook**

The simple attachment of the power cable at the cable hook prevents tripping hazards during transport.

## Specifications

- Supply voltage (Ph/V/Hz) 1 / 220 - 240 / 50 - 60
- Vacuum (mbar/kPa) 235 / 23,5
- Air flow (l/s) 40
- Rated performance (W) 850
- Container content (l) 7
- Standard nominal width ID 35
- Cable length (m) 7,5
- Sound pressure level (dB(A)) 62
- Weight without accessories (kg) 3,5
- Weight incl. packaging (kg) 6
- Dimensions (L x W x H) (mm) 375 x 285 x 310
