

Powerful hot water high-pressure cleaner in the HDS compact class from Kärcher: with the unique eco!efficiency mode the HDS 6/14 C combines economical and environment-friendly work with superb comfort for the user. The EASY!Force high-pressure gun utilises the recoil force of the high-pressure jet to reduce the retaining force to zero, while the EASY!Lock quick-release couplings enable handling that is five times faster than conventional screw connections, without compromising on robustness or longevity. The operation is also effortless, after all the machine has an intuitive single-button operation. Large wheels and a steering roller/caster ensure smooth mobility, whereas the robust chassis with integrated tanks for fuel and cleaning agent also survives tougher applications without difficulty.

Practical storage compartments for accessories, nozzles, etc. round off the clever concept of the 1-phase machine.

Features

Efficiency

Eco efficiency mode – efficient and environmentally friendly, even when used for prolonged periods. Reduces fuel consumption and CO2 emissions by 20%. Precise detergent dosing unit with rinse function.

Ease of use

Intuitive operation thanks to the large single-button selector switch. Large tank opening with filling chute. Tanks for cleaning agent, calcification protection and fuel can be conveniently filled from outside without opening the hood.

Storage
