

With a noise level of 66 dB (A), the Puzzi 30/4 spray extraction machine is the quietest wet vacuum cleaner in its class and ideal for low-noise cleaning. With a 30-litre fresh water capacity and a 350 mm floor nozzle, this innovative spray extraction machine is especially suitable for cleaning large carpeted areas. The machine design places great emphasis on ergonomic, stress-free and time-saving cleaning.

The EASY-Operation concept and the ergonomic upright stance make handling much easier. The

learning curve is smooth, thanks to easily understandable pictograms. The dirty water tank is removable, and the handle and shape of the tank are designed for ergonomic transport. The container is easy to clean, which also makes it suitable for filling the fresh water tank. The short set-up period saves time and money. The drying time with this machine is up to 30% shorter than with competitive products. This is partially due to the flexible suction lip, which always assures an optimal suction angle. The Puzzi 30/4 is easy to carry, even when lying flat with a full fresh water tank, and its large castor wheels make it easy to transport over stairs.

Features

Large tank volume

Even with a full 30 litre fresh water tank, the Puzzi 30/4 can be easily transported lying on its back.

An integrated filling level indicator shows the operator the current fresh water level at all times.

The fresh water filter protects the components and can be removed and cleaned with no tools required.

User-friendly EASY Operation operating concept

Easy selection using the rotary switch (machine off, spraying, vacuuming, spray-vacuuming).

Self-explanatory pictograms provide assistance with use.

Easily accessible rotary switch position on the top of the machine.

Ergonomic upright concept

Users can work without tiring and save time thanks to the well-designed machine concept.

Ergonomic transport thanks to the special tank geometry and handle.

Large transport wheels

Thanks to the large wheels, the Puzzi 30/4 is easy to manoeuvre, even when completely full.

Smooth-running wheels with a 30 cm diameter

Specifications

- Max. area performance (m²/h) 60 - 75
- Air flow (l/s) 74
- Vacuum (mbar/kPa) 254 / 25,4
- Spray volume (l/min) 3
- Spray pressure (bar) 4
- Tank of fresh/dirty water (l) 30 / 15
- Turbine capacity (W) 1200
- Pump capacity (W) 70
- Supply voltage (V/Hz) 220 - 240 / 50 - 60
- Weight without accessories (kg) 26
- Dimensions (L x W x H) (mm) 580 x 460 x 930
