

The WD 3 V-17/4/20 is powerful and energy-efficient with power consumption of only 1000 W. The machine as well as the suction hose and the Clips floor nozzle are perfectly matched – for the best cleaning results on dry, wet, fine or coarse dirt. The wet and dry vacuum cleaner impresses with its compact design and a robust 17 l plastic container, 4 m cable, 2 m suction hose and its fleece filter bag. Thanks to the single-piece cartridge filter, it is possible to vacuum both wet and dry dirt without filter replacement. The blower function is useful for cleaning areas that are difficult to access. The hose is stored by hanging it on the machine head, thus saving space. The cable can be stored on the cable hook, tubes and floor nozzles at the bumper. The "Pull & Push" locking system allows the simple opening and closing of the container. The handle of the vacuum cleaner can be removed and the accessory can be connected directly to the suction hose. Also clever: Tools or small parts can be set down on the area on the machine head. The ergonomically shaped carrying handle enables comfortable transport.

Features

Single-part cartridge filter

For wet and dry vacuuming without additional filter replacement. Simple installation and removal of filter by turning without additional locking part.

Practical cord and accessories storage

Space-saving, secure and easily accessible accessories storage. The power cable can be safely stored using the integrated cable hooks.

Hose storage on the device head

The suction hose can be stored in a space-saving manner by hanging it on the device head. Intuitive securing mechanisms for left- and right-handed users. Storage shelf: For the safe storage of tool and small parts such as screws and nails.

Practical blower function

Where vacuuming is not possible, the practical blower function can be used. Effortless dirt removal, e.g. from a gravel bed.

Fleece filter bag: Triple-layered, extremely tear-resistant fleece material.

For longer lasting suction power and high dust retention capacity.

Intermediate parking of the handle on the device head

Quickly park the handle on the device head when taking a break from work.

The device, suction hose and floor nozzle are optimally coordinated

For the best cleaning results – whether dry, wet, fine or coarse dirt.

For maximum vacuuming convenience and flexibility.

"Pull & Push" locking system: For quick, easy and safe opening and closing of the container.

Ergonomically shaped carrying handle

Device is easy and convenient to transport.

Specifications

- Energy use (W) 1000
- Container capacity (l) 17
- Container material Plastic
- Colour Device head yellow Device bumper yellow Container yellow
- Power cable (m) 4
- Standard accessory ID (mm) 5
- Supply voltage (V/Hz) 220 - 240 / 50 - 60
- Weight without accessories (kg) 4.5
- Weight incl. packaging (kg) 6.7
- Dimensions (L x W x H) (mm) 349 x 328 x 492
