

FEATURES

- Material: Rubber & Galvanised steel strip.
- Application: Used for reliable vibration dampening support on pipes, cables, or groups of cables.
- Characteristics: The clip is made from galvanised steel strip, the inside edges of which are protected by a rubber section.
- Impacts and vibrations are damped by the rubber, which also eliminates wear.

SPECIFICATIONS

- Hose Size (mm): ø10
- Band Width (mm):15
- Material Thickness of Clip (mm): 0.6
